# THE MIRACLE WORKER

Are you one of the many individuals who suffer from pain, trauma or depression? Do you struggle day to day in your personal and professional life? If you are tired of not feeling well, are undergoing stress, lethargy, episodes of anger and feel bombarded by life's tedium — you are not alone. Thousands of people share the same anxieties, resistance and life uncertainties. Now you can find light at the end of the tunnel.

Many alternative holistic health care practitioners have deduced that their patients are being impacted by their emotions. There is an approach that easily and quickly addresses the "emotional" component of health problems—it's called the Neuro Emotional Technique (NET).™

Scientific data proves negative emotion and cellular memory communicate causing neuro-physiological imbalance. These imbalances thrown in with one's internal biochemistry can disrupt the body's natural equilibrium and lead to disease and ill health.

## Healing, Peace and Emotional Health

Trained to assist the body's healing process by identifying and balancing unresolved emotional influences, Dr. Bruce Hofmann—one of ten renowned Florida-based NET certified practitioners, follows a mind-body approach. He treats people, not parts. Hofmann unravels the very essence of his patients by channeling and releasing negative biochemical energy. The end-result is a more

neurologically integrated and healthier person. Transformations occur through a three-tiered process:

### UNCOVER.

Expose the source of the emotional trauma that sabotages you.

**DISCARD.** Eliminate that source.

**DISCOVER.** Realize the peace of mind you were meant to have.

Patients cite that through Dr. Hofmann's "miracle work" a shift of consciousness occurs filling you with peace and well-being. Patients are given the tools to achieve their dreams. Parkland Mayor Robert A. Marks is an advocate, "I was especially fatigued as I entered the final weeks of campaigning. Dr. Hoffmann was able to reinvigorate and focus me for the final sprint to victory." Miami's Rocio Davis, Managing Director of E Women's Network concurs, "It's a process that works. I left behind years of pain and issues of unworthiness and value. I no longer replay the broken record of not being worthy of love." ♦♦♦♦
